Transportation	up to \$2,900**

- - -

Detailed Explanations

Student Charges

Student Charges consists of all non-tuition student related charges. Other fees charged to the student’s account may include student supply purchases, lab fees, field trips, publications, class dues, AP tests, some athletic clothing, gym equipment, and elective activity charges, such as outdoor education trips, dances, and other co-curricular experiences. These charges will be added to the tuition statements, and you will receive the billing for any charges the month after they are incurred.

Facilities Fee

Newly enrolled students must pay a one-time, \$1500 fee that helps the school offset costs to maintain the campus.

Transportation Services

\$2,900 for a full-year pass**

The full-year pass is for all-day service on one of the bus routes. Smaller passes, broken down by morning or afternoon and/or sports season, are also available.

** Listed rate is for the 2024-25 school year and is subject to change. 2025-26 rates and routes will be set in August 2025.
