

How to Create a Study Schedule for Exams:

Preview

- What classes do I have final exams in? (English, Math, Science, Social Studies, Language, etc.)
- What topics will be on the exam?

Assess

- Don't relearn the entire semester; look for gaps in knowledge.
- Determine what you are shaky on and focus on studying that.

Materials

- Gather materials for each exam: syllabi, study guides, notes, review packets, slides, handouts, textbook, etc.

Prioritize

- Prioritize your time based on:
 - Order of your exams
 - Which exam counts for a large percentage of your grade?
 - Do you want to improve your grade from a B+ to A- or a C to B?

Make a **specific** timetable of what you will study:

Mon	Tues	Wed	Thur	Fri	Sat	Sun
9-10:30 am Make Spanish vocabulary flashcards for Ch. 4	11-12 pm Read photosynthesis slides and answer Ch. 7 questions		10:30 am Meet with English teacher about “figurative language” unit	8- 10 am Answer Social Studies Ch. 9 review guide questions	9 am Take Bob’s practice test and then check the answers.	11 am Teach figurative language concepts to Jane.
	7 pm Review Spanish grammar on “subjunctive vs. indicative” for 15 minutes.	3 pm Quiz myself with Spanish vocabulary cards		4-5 pm Make mock test for math on slope equations and trade with Bob.		Get some rest!
